Subject: Proposals for Front Street and Mud Island Interceptor Evaluation

Unfortunately, SARP10 only received one proposal for the Front Street and Mud Island Interceptor Evaluation Project. This work is indirectly linked to the Front Street and Mud Island Interceptor Rehabilitation Project in that work on the Rehabilitation Project was going to facilitate the Evaluation work. As you are aware, the City has already rejected the bid for the Rehabilitation Project and we are putting it back out for bid with a reduced scope. Therefore, SARP10 recommends that the proposal for the Evaluation Project be rejected as well. We are preparing a revised scope for the Evaluation project and would like to put that project back out for proposal in a couple of months.

Sincerely,

BLACK & VEATCH

Brad Davis, PE
