**RE: Updated FOG Management Program
Consent Decree for City of Memphis WCTS
Civil Action No. 2:10-cv-02083-SHM-dvk**

Dear Mr. Ammons:

Enclosed please find a copy of the City of Memphis updated FOG Management Program. We believe these changes made to the July 21, 2021, version are form over substances. It has been two years since the submission of the prior FOG Management Program update which, in light of, among other things, the number of changes, the City requested EPA's written approval based upon paragraph 10 of the Consent Decree. We have still not heard back from EPA on the July 21, 2021 submission.

To facilitate your review and to make it easy for you to quickly review and identify the wording changes, both a tracked changes copy, and a clean copy of the changes made from the 2021 version are enclosed. Please note that some of the figures or attachments were not readily subject to underlinings and cross-outs delineating the changes.

We would appreciate your cooperation in this matter and look forward to hearing from you soon. If you have any questions, please contact me at 901-636-6199.

Sincerely,

Christopher Morrical, P.E.
Administrator, Environmental Construction
Public Works
City of Memphis
